2. Appendix A shows the site proposed for the camp. Inspected the site this morning with the Deputy Commissioner and other local officials. An enlarged sketch of the area selected is put up. The area covered by the site is marked in red pencil. This site is about half

half a mile from the Kadur Railway Station on the road to the Madag Tank. The site selected covers the following S.Nos. of Kadur village. Of these, S.Nos. 247, 269,

S.No.		Extent. A	G
1. 247.	..	9	39
2. 269.	..	10	23
3. 272.	..	10	27
4. 279.	..	12	3
5. 275.	..	0	39
6. 274.	..	0	5

and 272 are government lands. A portion of S.No. 279 is in private holding and the other portion is government land. S.Nos. 275 and 274 are also lands in private holding. There is no standing crop on any portion of this site. I see no objection to the permission being granted for making use of this site for the camp. Compensation will have to be paid only in respect of the lands in private holding, viz. S.Nos. 279, 275 and 274. The Deputy Commissioner thinks that as these lands are valuable, a ground rent of Rs 25/- per acre ought to be paid. I agree with him. The actual amount of compensation to be paid will of course depend upon the area actually taken up for the camp.

3. In Appendix A, a site 100 yards by 200 yards, about one mile from the camp site, behind a tank which is described as Madag tank, has been proposed for an ammunition depot. We located this site this morning during our inspection. The tank referred to is not the Madag tank but is a tank called Kaggere a part of Chikkangala tank. This tank has no water and the site selected lies in S.No. 195 of Chikkangala village. This S.No. has an extent of 16 acres 9 guntas assessed at Rs 15/-. A portion of this S.No. has been cultivated and the portion now selected was not yet been cultivated. There is no objection to give permission for this also,

the

the compensation payable being fixed at the same rate, viz. Rs 25/- per acre.

4. The camp site is bounded on the north by the road leading to Yemmedoddi Estate and the Madag tank and a cart track leading to Linglapura village. The right of way on these roads will have to be reserved. The military authorities should be told that the public should not be prevented from using the road to Madag tank and the cart track to Linglapura.

5. In Appendix B, the Military authorities have asked for a site near the Bus stand in Kadur town for a Collecting Post. This site being very near the Bus stand and in the midst of dwelling houses, the Deputy Commissioner and the local officials feel that permission should not be given for the use of this land. I agree with them.

6. As regards water-supply, the maximum need of the camp is estimated at 6,000 gallons per day. This supply is proposed to be drawn from the Kadur Water-supply. The source of water-supply to Kadur town is the Chikkangala tank from which water is drawn under gravitation into a storage tank located very near the proposed camp site. I understand that the capacity of this storage tank is 50,000 gallons per day. The average consumption in Kadur town is about 40,000 gallons per day. I understand that it is possible to supply this 6,000 gallons of water required by the military without affecting the water-supply to Kadur town. The Water-supply arrangement to Kadur town is a gravitation scheme and the control and supervision of the water-supply arrangements are under the control

of

W 30-43.

D[illegible] NO 1376

of the Kadur Municipality. The Deputy Commissioner may be requested to fix, after consulting the Kadur Municipality, the cost for the supply of water to th military camp.

Camp: Kadur,

27.9.43

To

The Secretary to the Hon'ble the Resident
in Mysore, Bangalore.

Sir,

Jungle Warfare Training.

With reference to your letter No.D.F.100-43 dated 18th August 1943 on the above subject, I am directed to state that Appendix A shows the site proposed for the camp. The site which is half a mile from the Kadur Railway Station on the road to the Madag Tank, comprises the marginally noted Survey Nos. of Kadur village of which Survey Nos.247, 269 and 272 are Government lands. A portion of Survey No.279 is in private holding and the other portion is Government land. Survey Nos.275 and 274 are ~~lands~~ in private holding. This Government have no objection to the Military authorities being permitted to use this site for the camp subject to the payment of a ground rent of Rs.25/- per acre in respect of the lands in private holding only. The ~~actual~~ amount of compensation to be paid will depend upon the area actually taken up for the camp.

S.No.	Extent A. G.
247	9 -39
269	10 -23
272	10 -27
279	12 -3
275	0 -39
274	0 -5

As regards the site of 100 yards by 200 yards in Appendix A, about one mile from the camp site behind a tank which is described as Madag tank and which has been proposed for an Ammunition Depot, I am to state that the tank referred to is not the Madag Tank but is a tank called Kaggere, a part of Chikkangala tank. This tank has no water and the site selected lies in Survey No.195 of Chikkangala village. This Survey No. has

an extent of 16 acres and 9 guntas, a portion of which has been cultivated, and the portion now selected has not yet been cultivated. There is no objection to the occupation of this site also, subject to the payment of compensation at Rs.25/- per acre.

In this connection, I am to point out that the camp site is bounded on the north by the road leading to Yemmedoddi Estate and the Madag Tank and a cart track leading to Linglapura village. The right of way on these roads will have to be reserved and the military authorities told definitely that the public should not be prevented from using the road to Madag Tank and the cart track to Linglapura.

As regards the site near the Bus Stand in Kadur Town for a collecting post, I am to state that as this site is very near to the Bus Stand and in the midst of dwelling houses, Government consider that it will be very inconvenient to allow the military to have it. They will be glad if this site is abandoned and another site in a less unobjectionable locality selected for the purpose, if necessary.

Lastly as regards water supply, I am to state that it is reported that it might be possible to supply 6,000 gallons of water as requested, subject to payment of the cost for the supply, to be determined by the Deputy Commissioner in consultation with the Municipality.

I have, etc.,

To - The Secretary to the Hon'ble the Resident in Mysore.

SUBJECT: JUNGLE WARFARE TRG.

Ref: your Memo DF.100-43/Pol. dated 9th Sept.43.

1. It has been decided since the issue of our No.146111 Q.1. dated 14 August 43 that:

(a) The private land in the Railhead Depot, Area i.e., a portion of Survey No.279 and Survey No.274 and 275, will NOT now be used.

(b) The area near to that was referred to the WADAG tank, which was required for ammunition storage, will also NOT be used for any purpose, Therefore cultivation may be undertaken without delay.

(c) As regards the site near the bus stand near KADUR Station, as troops will NOT be arriving by train, but by M.T., the need for the use of the piece of land does not now arise.

2. A recce will shortly be convened to locate a Railhead area at TARIKERE, and it is the intention that the field depots in the new area start functioning by 17 Oct. 43. The field depots at KADUR will therefore be removed from their present site by 17 October.

3. An officer of this HQ will be passing through KADUR on 16 September 43, and he will issue orders to ensure that any military materials near the bus stand Vide para 1 (c) are removed immediately.

4. The change in our plans could not have been foreseen, but a copy of the recce report at TARIKERE will be forwarded to you to approve the use of the land so chosen.

APPENDIX "G"

ENGINEER APPRECIATION & STORES REQUIREMENTS.

The only items requiring construction are:-

(a) Water Points.
Latrines.

Water Supply.

2. The source of Water Supply is from the MADC TANK (shown in App "A" about two miles from KADUR Ry Sta; this source supplies the Town Municipality (50,000 galls) by a 4 inch underground main.

3. There is NO other water supply for any other site in a three-four mile radius around KADUR.

4. The exact location of the water point is shown on the Key Plan at Appx "A". This Water Point will supply the demands of the R.H. Depots and also the C.C.S. sited in the same area.

5. Maximum Daily Output is estimated at 6,000 galls

6. Sedimentation tanks will be provided, on the recommendations of the Medical Officer.

7. The KADUR Town Municipality are willing to install the standpipe at a charge of Rs. 50 to Rs. 100.

8. Our demands at paras 5 and 7 have been put before the Presiden of the KADUR Municipality and have been favourably received. Formal permission will now be requested, and it is expected that a water char of Rs.10 - 20 will have to be met. On receipt of our request the Asst Engineer P.W.D., KADUR would submit plans and estimates. *If required to do*

(a) SCALE OF LATRINES REQUIRED.

SECRET

JUNGLE WARFARE TRG CHICMAGALUR AREA.

1. A joint recce of KADUR as Rail Head has been held. To maintain one Div (less one Bde) in the Jungle Trg Area the following will be located at KADUR R.H.

C.C.S. (200 beds & expansion for 100 beds)	Area 200' x 200'
Sup Depot	" 200' x 100'
Ord Stores Depot	" 180' x 160'
Canteen Base Issue Depot	" 45' x 45'
Det Movement Control	Att Ry Sta.

It is not intended that O.F.D. shall hold any amn although an area 200' x 100' capable of holding 2 days' F.F.C. has been earmarked; 10 days' notice of items requiring replacement is required at O.F.D.

2. The layout of the Depots is shown on the Key Plan Appx "A".

A sketch plan of KADUR Ry Station with a note on the facilities (incl evacuation of sick) is at Appx "B". Ry facilities are adequate.

3. (a) Personnel Staff Tables - see Appx "C".
(b) Requirements of Tentage - see Appx "D"
(c) Tonnages to be stocked at R.H. - See Appx "E".
(d) Tpt requirements - See Appx "F"

4. Construction is required for water points and latrines only. Details see Appx "G".

Construction will be carried out under arrangements made by Chief Engineer for completion by 15 Sep.

Acceptance of Necessity will be issued separately.

5. C.C.S. will be improvised or provided under arrangements made by D.D.M.S. It will be self contained in all respects as regards tentage and personnel.

6. Labour is available locally and will be employed as required by Os.C., Depots.

7. Medical.

(a) Anti-Malarial measures will be enforced.
(b) KADUR town will be out of bounds to tps.

8. Land. All land occupied by the R.H. Depots is Govt land. Hon'ble the Resident is being asked to obtain sanction of MYSORE Govt to its use.

Soil conditions are good. A reasonable track leads from the main road to site.

9. Barbed wire perimeters are required for all Depots. They will be erected by personnel of the Depots.

Requirements of barbed wire are - Single Strand - 55'

10. Communications. C.S.O. will notify the signal arrangements.

11. Postal. 70 Div have requested no alteration in present arrangements; i.e. all mails will be handled through 11 A.B.P.O.

12. A tempy Adm Comd (class 2) will be extemporised and provided by 105 L of C Area.

13. The R.H. Depots will be ready for operation by 20 Sep 43. Services will take action accordingly.
